About RACIS 2018

Computing in the most simplest of terms is the method of using computers to accomplish a task. The field of computing includes computer engineering, software engineering, computer science, information systems, and information technology. The field of information science brings together and uses the theories, principles, techniques and technologies of a variety of disciplines toward the solution of information problems. The objective of this national conference is to provide a forum for researchers, academicians, industry practitioners and students to interact, exchange and share their experiences, ideas and research results about all aspects in the field of computing and information science as well as to identify emerging research topics and define future directions in these fields.

About Computer Science Engineering Department

The department of computer science & engineering is the latest addition to the Institution in the academic year 1999 - 2000. Identification of India as a potential source of computer professionals and keeping in mind the employment potential in this sector, the department aims at providing competent professionals to contribute its share to this technology boom. Faculty members and supporting staff with rich experience are appointed in the department.

About NSSCE

N S S College of Engineering, Palakkad is one of the most reputed, premier engineering educational Institution in Kerala. Founded in 1960 by Nair Service Society under the leadership of late Bharatha Kesari Mannathu Padmanabhan, during the second five year plan with the assistance of the Central and State Government under the grant-in-aid scheme, affiliated to the Kerala Technological University, the College has an enviable heritage and legacy of grooming brilliant engineering professionals who later made their mark in industrial and other sectors of the country and abroad.

Call For Papers

Authors are invited to contribute original findings of research, case studies etc. on the themes of the conference.

The topics of interest include but are not limited to :

TRACK - 1

Smart Grid
High Performance Computing
Cloud Computing
Cluster Computing
Pervasive Computing
Fog Computing
IoT
Software Engineering
Green and Sustainable Computing
Network Security
Software Defined Networks
Evolutionary Computing
Internet and Web Technology

TRACK - 2

Expert Systems
Information Retrieval
Semantic Web
Social Network Analysis
Data and Knowledge Engineering
Machine Learning and Pattern Recognition
Intelligent Systems
Natural Language Audio and Speech Processing
BigData Analytics
Bio Informatics
Image Processing

Important Dates

Conference dates	19-20 January 2018
Last date for full paper submission	03 December 2017
Intimation of acceptance	03 January 2018
Last date of camera ready paper	09 January 2018

Paper Submission

Length of the paper should be limited to a maximum of 6 pages in IEEE conference double column format.

All papers will be peer reviewed and the review comments will be communicated to the authors. At least one author should register for the conference. All accepted and registered papers will be published in the conference proceedings and soft copy of the same shall be made available to the participants.

Some excellent works will be invited to be extended and re-submitted to undergo the review for forwarding to some reputed journals (SCI/SCI indexed) for further review and publication. Visit conference website (<http://www.racis18.com>) to submit your paper.

Keynote Speakers

Dr. Anitha R
Professor & Head
Department of CSE
